PROJECTS

Real-Time Cricket Scoring Web App

- Built a web app for street and local cricket where players who are not batting can score the match live from their own mobile phones.
- Anyone can open the live score with a match code and see the same ball-by-ball updates instantly.
- Added a "scoring baton" so only one scorer is active at a time, and a free player can take over in one tap.
- Supports custom street cricket rules such as wides, no-ball runs, byes and a joker player.

INTERNSHIP / EXPERIENCE

Python Programming Internship — CodeAlpha *May 2025 – Jun 2025*

- Completed an internship focused on Python programming.
- Gained hands-on experience in coding, problem solving and real-world applications.
- Built small projects and improved programming logic and confidence.

LEADERSHIP / CLUB ROLE

Influencer, Cyber Security Department Club *2026 – Present*

- Promoted club activities and events to increase student engagement.
- Created and shared content to publicize technical events and sessions.
- Encouraged peer learning and participation in cyber security initiatives.
- Contributed to a secure and collaborative learning environment.
